

U. S. PLANS CONTROL OF MONEY MARKET

Continued from First Page.

Government thus controls the issue of such control does not amount in any way to a Government guarantee of the securities. It is only a means of passing upon the question of their necessity. It will be necessary for the Federal

been made to the Treasury Department by persons who were anxious with respect to new capital issues have been analyzed by the Federal Reserve Board and by Assistant Secretary Lottings of the Department.

The collateral plan, calling for the formation of a Government corporation to buy and sell such issues as are officially declared to be essential to the national health, is also being considered.

To Absorb Farm Loans.
Farm loans are also proposed to be absorbed by this corporation, removing the necessity for the use of the \$100,000 fund already set aside by the

road financing and improvements will be merged with the other interests. If the Congress consents to such a course, already the Government has made provision for the making of a \$100,000,000 appropriation for the

Been Incendiary.
BUENOS AYRES, Argentina, Jan. 11.—The burning of crops is continuing in any parts of the republic.
The incendiary nature of the fire
